

Subject: Testimonial

I have had the Laundry Pure for a couple of months now and truly love it.

When we built our house we tried to think of eco friendly items to use in it. That is why we went with Poly Steel Insulation, a tankless water heater, High efficiency heating and cooling systems and now we added our Laundry Pure.

Wow what a difference it makes in the clothes we wash. Have you ever stayed at a nice hotel and noticed how absorbent the towels are? Well with the Laundry Pure you get that same type of absorbency. Not to mention the fresh smell of clean without detergents. Now I do not have to worry about phosphates in our septic tank anymore either.

For the person with allergies, the Laundry Pure is a must. No need for detergents or softeners so it is hypoallergenic right out of the box and a nice byproduct is the fact that the machine exhaust ozone enriched air so you get to freshen the air as you do laundry. So the Laundry Pure is essentially two products in one.

I would and have highly recommended the Laundry Pure to my friends and family.

In addition to how wonderful our Laundry Pure is, we also want to thank Jane and Dennis Gillen for the outstanding assistance they provided us with the installation and initial use. Dennis made it so easy since he did all the work and all I had to do was watch.

I hope you too will try the Laundry Pure from Jane Gillen.

Thanks!

Derek
