
Jane~

I would like to let you know how pleased I have been with laundry pure and the use of it in my salon, Smith and Company. The fresh scent of the water is wonderful and I smell it as soon as I open the door of my salon.

As a State Inspector for the NC Cosmetic Art Board, I also would highly recommend the Laundry Pure for all salon owners in that it kills 99% of bacteria and saves money due to the fact that you no longer have to buy laundry detergent and use hot water. With the spread of disease being more common today than it was 10 years ago, it is of utmost importance that salons kill all bacteria and provide clean linens for each customer that they serve, and Laundry Pure is excellent in meeting that standard.

Any salon or individual interested in Laundry Pure would get high ratings from me and I would highly recommend its use.

Thank you for allowing me the opportunity to share with you,

Diane Smith, Inspector
NC State Board of Cosmetic Arts
