

### Laundry Pure Testimonial from a dog breeder

My name is Sue and I raise Bichon Frise and Lowchen for sale and show. It is very important that my dog's bedding is kept very clean for the health of my dogs- especially the puppies. Normally I would use some sort of detergent like Tide along with either Clorox or an antibacterial product called Odorban.

I was extremely skeptical and could not believe that Laundry Pure by itself with nothing but cold water could clean to my satisfaction. I was truly amazed at how clean the dog's beds were with Laundry Pure! They smelled as if they had hung outside in spring sunshine and breezes.

I have also noticed that the dogs don't wet their beds nearly as much. Their hygiene seems to have improved as well.

The Laundry Pure has benefited me as well. When I went to bed at night, my skin would always itch- even after taking an antihistamine. After washing my sheets with Laundry Pure, I realized that the itching is now gone.

I would be glad to recommend Laundry Pure to anyone!

Sincerely,

Sue
